

BLACKBERRY APPLESAUCE

DIRECTIONS

1. Print labels onto full-sheet (8.5-by-11") brown kraft sticker paper. Each page includes half labeled and half plain labels for the tops of the lids.

- Print page 2 for 2.5" round labels, for wide-mouth mason jars. 4 per page.
- Print page 3 for 2" round labels, for narrow-mouth mason jars. 8 per page.
- Print page 3 for bonus 2" date labels. 15 per page.

2. Cut out shapes using scissors or an Xacto knife. Or, if you happen to have a 2.5" or 2" round punch, you can use that to expedite the process.

3. Adhere to processed and cooled jars.

TIPS & TRICKS

Print in full color, using the highest quality setting on your printer.

Print at 100% scale (make sure 'scale to fit' is unchecked) to ensure labels are printed at the correct size.

Weatherproof label material, if you can find it, will allow your labels will better hold up to the elements (refrigerator condensation, for example). You can choose inkjet or laser material depending on what kind of printer you have.

For mason jars with two-piece lids, you can also print the 2" labels onto cardstock and screw the metal ring on top of it, or punch a hole and use as a hang tag.
