- Print page 3 for BONUS blank bubble labels, write in your own flavor!

2. Cut out shapes using scissors or an Xacto knife.

3. Adhere to processed and cooled jars.

TIPS & TRICKS

Print in full color, using the highest quality setting on your printer.

Print at 100% scale (make sure 'scale to fit' is unchecked) to ensure labels are printed at the correct size.

Weatherproof label material, if you can find it, will allow your labels will better hold up to the elements (refrigerator condensation, for example). You can choose inkjet or laser material depending on what kind of printer you have.

For mason jars with two-piece lids, you can also print the labels onto cardstock and punch a hole and use as a hang tag.
