

DRUNKEN PEACH JAM

DIRECTIONS

1. Print labels onto full-sheet (8.5-by-11") matte white cardstock or sticker paper.

- Print page 2 for 1.5-by-2.15" square tags designed to be tied onto jars with decorative twine. File includes 20 labels per page.
- If printing double sided tags, print page 3 on the back of page 2 (check your alignment on a test sheet so you know which direction your printer feeds). The background color intentionally extends beyond the border to account for printer shifting.
- Print page 4 for separate back tags/labels, which do not have extra bleed margin and include guidelines for cutting.

2. Cut out shapes using scissors or an Xacto knife. For hang tags, punch a 1/8" hole in the top of tags and tie onto jars with decorative twine or ribbon.

3. Tie to processed and cooled jars.

TIPS & TRICKS

Print in full color, using the highest quality setting on your printer.

Print at 100% scale (make sure 'scale to fit' is unchecked) to ensure labels are printed at the correct size.

Weatherproof label material, if you can find it, will allow your labels will better hold up to the elements (refrigerator condensation, for example). You can choose inkjet or laser material depending on what kind of printer you have.

You can also print onto cardstock and use as a hang tag.
